"News" ad. man to call on you and  
help you make your advertising more  
effective. He can do it.

FIFTY-THIRD YEAR.

LAST EDITION.

## San Pedro Road Calls For Bids.

Empire Construction Company Getting Ready to Build One  
Hundred Miles of Road South and West From Caliente—Bids Must be in by July 31, Which Proves That  
Time for Talk Has Past and Time for Action Arrived.

The San Pedro, Los Angeles & Salt Lake Railroad company is apparently not letting the grass grow under its feet, judging from a letter that has been addressed to every big railroad contractor in the west. The letter calls for bids for 100 miles of construction, with the intimation that as soon as the water problem on the desert has been solved, that there will be 300 more miles of construction work to bid on.

The letter was sent out by the Empire Construction company last week and copies of the same have been received by the Utah Construction company, Earl Bros. & McDonalds of Springfield, Fitzpatrick Bros. and other well known Utah contractors. The bids have to be in by July 31, and will be opened Aug. 1, when it is believed that the contracts will be awarded as quickly as possible and active work commenced.

This is one of the most important actions yet taken by the Salt Lake Route and shows conclusively that Senator Clark does not intend to let any time elapse before he takes steps to close up the gap.

The specifications for the two sections included in the bids have been approved and adopted by the board of directors of the railroad company. They include a stretch of 50 miles from Caliente to Moapa river and

15 miles from Daggett to the edge of the desert. It is believed that as soon as the water supply problem on the desert is solved that the other specifications that have been prepared will also be approved and adopted. The water facilities in the districts included in the bids asked are abundant and there will be no hitch in commencing work as soon as the bids are awarded.

In order that there may be no delay material is being sent down to Caliente for the erection of a commodious boarding house so that there may be comfortable quarters for "gentlemen and engineers" as the prospective proprietors naively put it a few days ago.

At present there are at least three representatives of contracting firms going over the route. Their identity, however, has not been established. Assistant Chief Engineer H. M. McCarty, when asked this morning regarding the bids and other matters, stated that everything was being done by Chief Engineer Hawgood in Los Angeles and the edge of the desert. It is stated, however, that even with water available that work on this section be next to impossible until winter began to set in.

Engineer M. M. Murlaugh to Take

Well Driving Plant on to Desert.

One of the most formidable propositions in the construction and subsequent operation of the Salt Lake Route below Caliente is that of the water supply. It is stated by one of the engineers connected with "the marine department" that the matter of securing an adequate water supply will cost the company, first and last, in the neighborhood of \$300,000. The matter has been placed in the hands of Engineer M. M. Murlaugh, who did considerable in

this direction for the Oregon Short Line on the Leaning Tower cut-off prior to the transfer to the Clark road. Mr. Murlaugh has placed orders for well driving outfits that cost in the neighborhood of \$6,000, and has already started prospecting for aqua pura along the route of the main line. It is stated that there will not be any great difficulty in striking water even on the Nevada desert, while at Las Vegas there is a splendid supply right in sight.

## THE CHRISTIAN ENDEAVORERS.

R. J. Jessup and Horace H. Smith of Salt Lake Address a  
Prison Workers' Conference—Rev. T. C. Smith, Denver, Talked on "The Mormon Menace"

Denver, July 13.—Sunrise covenant service in five churches marked the opening of the fifth and last day of the twenty-first biennial international Christian Endeavor convention. Large audiences attended these early meetings and thousands of Endeavorers pledged themselves anew to carry on the work which the organization has undertaken. From 8:30 to 9:30 study classes were in session at six churches. "China" was the subject of discussion of the foreign mission study class, of which Rev. Harlan P. Beach of New York was the leader. Rev. E. E. Clifters, D. D., of New York, led the discussion of the domestic mission study class, at which the Rev. E. E. Clifters, D. D., of New York, led the discussion of the domestic mission study class, at which the Rev. E. E. Clifters, D. D., of New York, led the discussion of the domestic mission study class.

methods used by him in dealing with youthful offenders brought before him as county judge of Denver.

"The Field is the World" was the topic of the forenoon mass meeting in tent at the University of Denver. The Rev. Dr. W. F. Stocum, D. D., president of Washington, D. C. president. Under the general head "Our Home Problems," speakers were Dr. W. F. Stocum, D. D., of Washington, D. C. president. Under the general head "Our Home Problems," speakers were Dr. W. F. Stocum, D. D., of Washington, D. C. president. Under the general head "Our Home Problems," speakers were Dr. W. F. Stocum, D. D., of Washington, D. C. president.

Treasurer William Shaw presided at a prison-workers conference in the Plymouth Congregational church, at which addresses were made by Mr. Horace H. Smith, Salt Lake City; Rev. George H. Williams, Nashville, Tenn.; Miss Edna E. Berger, Salt Lake City; Miss Lola V. Murphy, Murphy, Iowa; Mr. Robert J. Jessup, Salt Lake City; Judge Ben R. Lindsey, Denver; Rev. E. Emory Lyon, Chicago, and Rev. Edward A. Fredenhagen, Topeka, Kansas.

Dr. Doyle presented some carefully prepared immigration statistics and in the course of his address said:

"Many of those who come to us from distant shores have no intention of spending their days here. They are undesirable socially, politically, intellectually, morally and spiritually. They have no understanding or comprehension of our political principles and institutions and they display the densest ignorance upon political subjects. They are morally and spiritually degraded. Our foreign problem at home is thus seen to be a very real one. We must Americanize and Christianize them or they will Europeanize and un-Christianize us. In this work the church must take the lead. We must help to solve them." By Rev. W. B. Bentley, speaking for China, Rev. John H. Wyckoff, D. D., for India, and Rev. Willis R. Hotchkiss, for Africa.

## YEAR'S HEAT RECORD BROKEN.

"Good Old Summer Time" Here With a Vengeance—Thermometer Reached 94 Degrees at 2 o'clock This Afternoon—Was 95 at the Same Hour Yesterday.

The local weather man is doing his utmost to make the residents within his immediate jurisdiction as uncomfortable as possible. To that end he is giving them an exemplification of the "Good Old Summer Time" in an exaggerated form. Yesterday was the hottest day of the year up to that time, while today is a close second and may yet claim the laurels as a scorcher from yesterday. At 2 o'clock yesterday the mercury registered 93 degrees. The weather was sweltering hot throughout the day and until well into the night. This heat caused an electrical disturbance over the city at 9 o'clock last night. The rainfall was insignificant.

heut, but a desired change in temperature followed. All day the people took refuge from the rays of the sun and the close and excessively hot air in the business parts of town and patronized very liberally the street cars and the various resorts. This morning started in to be another record breaker with a temperature of 76 degrees at 6 o'clock, an unusual heat for the hour. Since then the increase, though not rapid, has been steady, and at 2 o'clock this afternoon the thermometer read at 94 degrees, so that today is the hottest it may become the hottest of the year. The heat is made the more oppressive on account of the extreme dryness of the air.

## IMPORTANT EVENT.

Completion of Telephone Work to be  
Duly Celebrated.

The Rocky Mountain Bell Telephone company will complete and celebrate the most important work of the year at Bostin, Wyo., one week today. At that time and place the construction gangs will finish the connection between Billings, Mont., and the line along the Union Pacific railroad. The formal ac-

ceptance and control of a number of local lines covering northeastern Wyoming by the Rocky Mountain company will also occur at the same time. The completion of the line between the Montana and Wyoming superintendents will be present to witness the consummation of the work. This company is now putting in 20 telephones for farmers between Rigby and Hecla, Idaho, along the Snake river and since the first of the year over 300 similar phones have been installed in that region. The force are now at work trying to locate him. He is 35 years of age, is over 6 feet high and stooped shouldered,

## WILLIAM REAFT HAS FOOT CRUSHED

Member Was Mangled Under a  
Street Car.

IT MAY BE AMPUTATED.

Japanese Have Mix at Sun Restaurant in Which Two are Beat With Hammer.

(Special to the "News.")

Ogden, July 13.—Yesterday William Reaft, who resides at 173 Twenty-second street, met with a serious accident which it is feared will result in the loss of his left foot. He is an employee of the street railroad, and was in the act of boarding a car going toward his home, when he fell, his left foot going under the wheels of the car. He was picked up and carried into the cave drug store, and Dr. Conroy summoned. The latter had him removed at once to his home and did what he could to ease the pain and make his patient comfortable. The unfortunate man's foot and ankle are badly crushed and bruised, and the doctor was not prepared to say up to noon today whether amputation would be necessary or not, but expressed the opinion that the injured member would have to be taken off. Conductor Streeter, who had charge of the car by which Mr. Reaft was hurt, says he was stopping the car to take him on, but he attempted to board it before it had come to a stop. It seems that no one but Mr. Reaft is to blame for the accident.

JAPS HAVE A MIX.

The Sun restaurant was the scene of a mix between a number of Japanese last evening, who made the welkin ring for the time being with the euphonious notes of their mother tongue. One of the party named Kura Kura, seized a hammer and proceeded to clean out the crowd, but after he had laid two of them out—one with a bruised scalp and the other with a badly mangled jaw—his efforts were stopped by the arrival of the police, who marched him, hammer and all, to the city jail. One of the party named Kura Kura, seized a hammer and proceeded to clean out the crowd, but after he had laid two of them out—one with a bruised scalp and the other with a badly mangled jaw—his efforts were stopped by the arrival of the police, who marched him, hammer and all, to the city jail.

ODDEN WOOLEN MILLS.

The meeting of the directors of the Ogden Woolen mills, which it was contemplated to hold today to consider the steps to be taken in view of the burning of the mills, could not be held owing to the absence of some of the members. A meeting of the stockholders will be held in the near future, at which it is believed it will be decided whether the mill will be rebuilt or not.

HURT IN A RUNAWAY.

Charles Gustafson is in Rather a  
Serious Condition.

Charles Gustafson, who was injured in a runaway at Sandy on last Wednesday is reported as still in rather a serious condition, with the chances for his recovery about even. He is unconscious most of the time. The action of the kidneys continues slight, and the general condition of his health is somewhat depressed. His pulse is 82, respiration 12 and temperature 38 centigrade. (Signed) "LAPPONI, MAZZONI."

SALT LAKE TEAM CHANGES.

Managers Now Dickering for "Pap" Eyer and Harry Newmeyer.

The magnates who are in control of the Salt Lake baseball team are said to be dickering for "Pap" Eyer and Harry Newmeyer. The latter is now with Colorado Springs and has been exhibiting some crack pitching this season. Both Eyer and Newmeyer have played in Salt Lake before and are well known to the fans. Their acquisition to the local team will add much strength to our organization that the hope will again be cherished that Salt Lake will have a winning team. Those who saw the games last week and are capable of judging, recognize the fact that a first class pitcher is about the only thing that is needed to transfer Salt Lake over to the winning column. It is very likely that President Rogers and Vice President Griffin will buy up all the stock of the team and make Jimmy Grim the manager.

The Western league has made overtures to President Lucas to buy "Slats" Davis for the rest of the season. But "Slats" says, "Not on your life. I've found a home that I like pretty good and I'm going to stay right here, and the fans all cry, that's right 'Slats,' we want you to be ours."

HUSBAND IS MISSING.

Wife Thinks He Has Met With Foul  
Play and Seeks Aid.

Charles Zerbe of this city who lives at 257 West Fourth South street, has disappeared in a strange manner. His wife called at the police station today and stated with tears in her eyes, that her husband had not been seen since Saturday afternoon at 2 o'clock. At that time he drew his wages from the Chambers Tar and Roofing company with whom he is employed, and she has been unable to find anyone who has seen him since. Mrs. Zerbe has met with foul play somewhere in the city, for she says he has never before absented himself from home without first telling her that he would be away. She thinks that some lawless character saw him draw his money and shadowed him until a favorable opportunity to rob him presented itself. Mrs. Zerbe left with the officers a minute description of her husband, and members of the force are now at work trying to locate him. He is 35 years of age, is over 6 feet high and stooped shouldered,

## Pope Now Has Hallucinations.

Thought He Saw Undefined Shadow Moving About the Room and Approach His Bed—Became Agitated, Called His Valet and Said to Him: "Poi! Who Is It? Who Is It?"—He Grows Worse.

Rome, July 13.—8:40 p. m.—Hypodermic injections of salt and water have been administered to the pope. The night bulletin is anxiously awaited.

Rome, July 13.—8:45 p. m.—The following bulletin has just been issued: "The depression of the pope's strength persists. The frequency of perspiration is slightly augmented. Respiration, 36; pulse, 92; temperature 37 centigrade. General condition always grave. No immediate danger. (Signed) 'ROSSINI, LAPPONI, MAZZONI.'"

Rome, July 13.—2:30 p. m.—The pope's condition took a turn slightly for the worse this morning but the change does not excite apprehension of an immediate climax. Last night was rather a sleepless one particularly during the early morning hours. The official bulletin frankly speaks of agitated periods during the night and confesses that the general condition of the patient is somewhat depressed. It developed soon after the issuance of the bulletin that this depression was quite marked and it continued to manifest itself throughout the forenoon, at one time assuming an alarming aspect. This was when the pope seemed to lose his grasp on reality, a shadow flitted through the room. The doctor and the attendants endeavored to dispel the period of depression, the general condition of the mental alertness continues clear. When Doctors Mazzoni and Lapponi made their morning call the patient inquired about Dr. Rossini asking "When I need him I shall send for him" and Monsignor Pifferi left the vatican, considering himself an injured man.

THE NOBLE GUARD.

According to rules established for the government of the noble guard, one of their principal duties is to watch assiduously the pope's health. The pope when his health is seriously ill, even the papal apartments passing under their responsibility during such periods. Afternoon, at 1 o'clock, the pope was found in bed, his health was seriously ill, even the papal apartments passing under their responsibility during such periods. Afternoon, at 1 o'clock, the pope was found in bed, his health was seriously ill, even the papal apartments passing under their responsibility during such periods.

MORNING BULLETIN.

Rome, July 13.—At 9:15 o'clock this morning the pope was found in bed, his health was seriously ill, even the papal apartments passing under their responsibility during such periods. Afternoon, at 1 o'clock, the pope was found in bed, his health was seriously ill, even the papal apartments passing under their responsibility during such periods.

UP TO MIDNIGHT THE POPE REMAINED tranquil, but afterwards he experienced

suited intervals. A physical examination of the pope's health was made since day before yesterday. It was contemplated to hold today to consider the steps to be taken in view of the burning of the mills, could not be held owing to the absence of some of the members. A meeting of the stockholders will be held in the near future, at which it is believed it will be decided whether the mill will be rebuilt or not.

DIZZINESS AND HALLUCINATIONS.

Rome, July 13.—12:30 p. m.—The dizziness from which the pope was suffering since day before yesterday, it was contemplated to hold today to consider the steps to be taken in view of the burning of the mills, could not be held owing to the absence of some of the members. A meeting of the stockholders will be held in the near future, at which it is believed it will be decided whether the mill will be rebuilt or not.

HIS KIDNEYS TROUBLE HIM.

Rome, July 13.—12:30 p. m.—It developed during the morning as the result of a careful medical examination that the condition of the pope's kidneys is worse, as the component parts of the urine are not normal. The diminution of certain elements led the doctors to believe that his system is gradually approaching a state of dissolution. Traces of albumen were found, indicating although the kidneys are not performing

purged upon his arrival in the city in the summer of 1900, and which resulted in his rash act of Saturday.

HIS MOTHER RECEIVED.

She has been deceived as to his every movement since arriving in Utah and believes that he has been engaged in ranching in a remote part of the state where the mails are very infrequent and hence she has not heard from him very often. The members of the family have already fixed up a story as to the cause of Keele's death to be told to his aged mother. She will be told that he met with an accident on the plains and died from the effects of the injuries received. It is said that all newspapers are kept from the mother so that she may not know the true history of her son's career.

WAS A HORSE TRADER.

In his native town Keele was known as a horse trader and it is believed that his reputation there was not as good as it might have been. He arrived here in the summer of 1890 with a load of horses and started a business. He secured employment as a gambler in the old Durham resort at 22 he shot at a college porter in a commercial street house of ill fame and when being chased by the officers fled from them and created quite a sensation.

HIS RECORD HERE.

When captured he gave the name of Ed. W. Hamilton. Since his incarceration in the state prison he has caused considerable trouble and recently was in a deadly conflict with another prisoner wherein both were seriously injured and it was thought at the time that neither one would recover. He has been a constant user of morphine and only two days before he committed suicide he is said to have threatened to take the life of Guard Vincent. It is thought that he was somewhat deranged for a week or two prior to his death.

FOLKS ARE WELL TO DO.

His father is a carpenter and contractor and one brother proprietor of the National Wood Works and the other brother is a prominent real estate and home owner. They are all well and highly respected citizens of Sioux City.

NOT ALLOWED TO GET UP.

Rome, July 13.—1:45 p. m.—The pope has not been allowed to get up today. No change is apparent in his condition since morning.

CONDITION GROWS WORSE.

Rome, July 13.—7 p. m.—The pope's condition is becoming worse. Contrary to the arrangement made for a daily reception by three cardinals, none was permitted to enter the sick room today.

FREAK REMEDIES SENT.

Rome, July 13.—At both the vatican and the house of Dr. Lapponi the arrivals of patent medicine, surgical instruments and medical apparatus of all kinds continue, each being accompanied by assurances that his holiness will recover if it is used according to directions. From Vienna have come highly perfected machines for producing artificial respiration and for making oxygen. The pontiff, however, has not required the administration of oxygen and has refused to use any of the devices. Says Pope Leo, "Is air—fresh air. Besides, I should be allowed to breathe. An old man of 64 should not be kept in bed without fresh air."

HIS CONFESSION OFFENDED.

Monsignor Pifferi, the confessor of his holiness, "feels rather offended because he is not allowed to enter the sick chamber and is especially disaffected with the attending physicians, believing it is due to them that the pope is excluded. This morning he again asked to be permitted to see Pope Leo. On hearing the request, the pontiff said: "When I need him I shall send for him" and Monsignor Pifferi left the vatican, considering himself an injured man.

THE NOBLE GUARD.

According to rules established for the government of the noble guard, one of their principal duties is to watch assiduously the pope's health. The pope when his health is seriously ill, even the papal apartments passing under their responsibility during such periods. Afternoon, at 1 o'clock, the pope was found in bed, his health was seriously ill, even the papal apartments passing under their responsibility during such periods.

A REMARKABLE PRESENTIMENT.

Pope Leo is credited with having said, "I am destined to die from this illness I feel I shall expire on Thursday, the feast day of the Carmelite madonna, whom I especially worship." The presentiment is remarkable because the pope is believed to have been in a certain way coinciding with the prophecy made in the 12th century by St. Malachy, the bishop of Armagh, who predicted that Pope Leo would be succeeded by a pope symbolizing the motto "Ignis Ardens" (burning fire). The Carmelite madonna is the patroness of the Carmelite order, which attributes its origin to a prophet Elijah, who ascended to heaven in a chariot of fire. Besides a member and protector of this order is Cardinal Gotti, who is looked upon as the most likely successor to the pontificate.

"BLESSSED ILLNESS."

Rome, July 13.—When Monsignor Angel, one of the pope's secretaries, this morning described to his holiness the burst of enthusiasm called forth by his illness, he declared that it was a good omen and a revival favorable to the Catholic church unexampled in its history, the pontiff exclaimed "Blessed illness."

REMAINS WILL  
BE TAKEN HOME

Those of the Convict Suicide to be  
Buried at Sioux City, Ia.

When captured he gave the name of Ed. W. Hamilton. Since his incarceration in the state prison he has caused considerable trouble and recently was in a deadly conflict with another prisoner wherein both were seriously injured and it was thought at the time that neither one would recover. He has been a constant user of morphine and only two days before he committed suicide he is said to have threatened to take the life of Guard Vincent. It is thought that he was somewhat deranged for a week or two prior to his death.

## HOW WATER WILL BE DISTRIBUTED

Commissioners Meet and Agree on  
Basis of Exchange.

WHAT FARMERS WILL GET

Their Portion of Canal Flow Is Over  
Nine Million Gallons Per Day—  
Will Water 2,027 Acres.

The Parley's canyon water commissioners met this morning in the office of Land and Water Commissioner MacKnight and settled upon the distribution of the canal water which is exchanged to the farmers for the Parley's creek water. The total amount to be distributed to the farmers is 9,340,000 gallons per day, which is 13.3 per cent of the total flow of the creek. This amount is to be used in irrigating a total of 2,027 acres. The water will be distributed at the various weirs in the city canal as follows:

Gallons.  
Farmers water, 9,340,000  
Weirs north of Twelfth South, 2,538,243  
Total, 11,878,243

The commissioners will go out to the different weirs this afternoon and adjust them so as to distribute the water according to the above figures. The balance of Parley's creek, 13.3 per cent, goes to the Decker, Kennedy and Rockwood ditches, which are not included in the contract of exchange.

CAPTAIN WRIGHT DEAD.

Esteemed Church Member Passes  
Away After Long Illness.

John D. Wright, an oldtime sea captain, and a faithful member of the Church, passed away at 2:15 a. m. Sunday, the 12th inst., at his residence, 21 south First West street, after an illness of six months. The deceased was born Jan. 24, 1838, in York, England, became a member of the Church of Jesus Christ of Latter-day Saints in 1884, and emigrated to Salt Lake City in June, 1881. He has resided in the Fourteenth ward since 1882.

Funeral services will be held from the Fourteenth ward meetinghouse tomorrow, Tuesday, at 1:30 p. m. Friends are invited. The remains may be viewed at the family residence from 12 to 1 o'clock the day of the funeral.

POOL ROOM IN OPERATION.

Takes Advantage of Discharge of the  
Grand Jury.

The pool gambling room that was running in the rear of the Kenyon hotel prior to the convening of the grand jury, is said to have commenced its nefarious business again. The report was secretly communicated to Capt. Burdick, who has two or three men watching the place. No arrests have as yet been made but it is safe to assume that the men who are trying to start the game again will conclude they had better let it alone.

FRAME BUILDINGS AFIRE.

A Number Damaged on Ninth East  
Street This Afternoon.

A barn at 121 Ninth East street took fire this afternoon and burned to the extent of about \$100. The flames spread to the residence of W. T. Cook in the immediate vicinity and damaged that to the tune of about \$200, after which they were extinguished. The cause of the fire is being investigated. The total loss could not be learned at a late hour this afternoon.

ALLEGED CREAMERY TRUST.

One Said to Exist in Sevier County—  
May be Prosecuted.

The alleged existence of a creamery trust in Sevier county was brought to the attention of Atty.-Gen. Breeden while on a recent visit to Richfield. The allegations are that there is an agreement between the Poulson and Sevier Valley creameries as to the sale and purchase of milk, and that each creamery refuses to buy milk in certain towns assigned to the other, thus forcing its sale to that particular creamery, or not at all.

The allegations were made by Sheriff Clark and Hon. J. M. Rolfe, to whom Maj. Breeden stated that if such facts could be established the creameries would be subject to prosecution as such a trust is not legal under the laws of the state. With the creameries a large number of laborers returned to work and operations were resumed by material suppliers.

HAWAIIAN FARMERS CAN'T BE BANKRUPT.

Honolulu, July 6, via San Francisco, July 13.—Correspondence of the Associated Press.—United States, Judge Estee has given a decision throwing out of court a petition to declare one Hee Fat bankrupt, on the ground that he is a native and not subject to involuntary bankruptcy proceedings. Hee Fat runs a rice plantation and mill. The case is regarded as of interest in that the same decision might apply to sugar plantations and other similar enterprises.

DIVORCES WANTED.

Three Unhappy Wives Ask to be Liberated From Their Husbands.

Three complaints in divorce were filed in the district court today. Teresa Cuccio asks to be awarded a divorce from Andrew Cuccio on the ground of failure to support. They were married in France on Feb. 24, 1891, and have three children of whom plaintiff asks the custody.

Caroline A. Westman complains that her husband Carl A. Westman has been guilty of habitual drunkenness for more than a year past, and has failed to provide her with the common necessities of life, notwithstanding the fact that he earns \$50 per month. She therefore asks for a divorce and also that she be awarded the custody of their five children. They were married in Sweden on Oct. 1, 1877.

Marguerite H. Justice asks that she be divorced from George H. Justice on the grounds of desertion and non-support. They were married at Newberry, Mich., on Sept. 23, 1895.

Killed by an Explosion.

Wilkesbarre, Pa., July 13.—An explosion occurred at 1:20 p. m. today at the

## Grand Jurors Subpoenaed.

All Are Served With Notices From Sheriff's Office That  
They Must Appear in Judge Tanner's Court in the Case  
Of Nye vs Cottrell and Fernstrom—District Attorney  
Eichner and Young Schulder Included.

The criminal libel case of City Atty. George L. Nye against Councilmen Cottrell and Fernstrom is to occupy the attention of Judge Tanner, one of the city judges, late this afternoon. The sheriff's office has been busy throughout the day serving subpoenas on witnesses, among whom are all of the members of the late grand jury, Dist. Atty. Eichner and Second Asst. City Atty. Russell G. Schulder.

Originally it was intended that Judge Diehl should hear the case but that official had other judicial business to dispose of which made it necessary to make the change to Judge Tanner's court. The contest promises to be warmly and even bitterly waged. Mr. Nye will endeavor to prove that he was malicious in the official statement or report to the council that stated that his office was under investigation by the grand jury. Messrs. Cottrell and Fernstrom will deny, they declare, establish that the statement was an absolute fact. To that end they have employed Judge Powers to look after their defense, and to that end the grand jury clerk and all its records are to be taken into court.

## COTTON BREAKFASTED WALES.

Portsmouth, England, July 13.—The Prince of Wales visited the United States squadron this morning and breakfasted with Rear Admiral Cotton on the flagship Kearsarge. All the ships in the harbor and the channel fleet, at Sythstead, dressed ship, rainbow fashioned fired a royal salute as the prince boarded the American flagship.

The prince received on the quarter-deck of the Kearsarge by Admiral Cotton and his officers, and the party descended to the admiral's cabin for breakfast, at which President Roosevelt and King Edward were seated. Admiral Cotton subsequently escorted the Prince of Wales around the ship, after which the prince landed, with the warships firing another royal salute and took a train for London.

The deck of the Kearsarge presented a wonderful scene, the time left the Prince of Wales' visit, who was uniformed in the British uniform jack was flying at the mast and the sea ship was dressed in rainbow fashion. Crossing a red draped gangway, the prince, who was accompanied by Ambassador Choate, Earl of Selborne, first lord of the admiralty, and others, passed through the line of sailors.

With Admiral Cotton and Captain Hemphill saluting with their hands at waist level, the prince and his suite were escorted to the shore by a detachment of the Royal Marines, including the royal yacht, the Victory, and the channel fleet, lying off.

After saluting Admiral Cotton and Captain Hemphill the Prince of Wales took hands with the prince, standing in the center of a group of officers with his hand at salute.

Tennis Players Coming.

London, July 13.—The White Star line steamer Oceanic, which sails from Liverpool for New York Wednesday will have among its passengers the brothers Doherty, who will compete in the American tennis championships, and Mr. and Mrs. W. K. Vanderbilt.

George Collins on Trial for Murder.

St. Louis, July 13.—George Collins, alias Fred Lewis, the confederate of "Bill" Rudolph, the bank robber, who escaped from jail last Monday, was taken to court today for trial on the charge of killing Charles Schumacher, a detective who had been sent to arrest the two men. Although not present, Rudolph was tried on the same charge. Sheriff Thomas H. Bruch, of Franklin county, accompanied by four deputies, escorted the prisoner, to guard against his escape or his rescue by Rudolph, who is still at large
